

About PACE First

www.pacefirst.com

PACE First ("PACE") help clients manage their safety, security, risk and crisis management be it from the site, or from the boardroom. They ensure the best people and best networks are in place to be able to respond to critical incidents globally. Their core services include risk and crisis consulting, travel risk management, security response and assessment, communication, negotiation and welfare situations.

PACE Client's

Their clients include international business, government groups and department, insurers, media, resource companies, sporting groups and aid workers.

Experience

PACE staff have experience in working in over 130 countries. Many of PACE's core team hold internationally recognised qualifications through statutory organisations, including security, political risk, consulting, military and policing.

Pace retain strategic footprints and consultants in varied geographical locations around the world to ensure timely responses to any incidents.

Key Founders and Consulting Team

Shaun Filer (CEO) and Consultants

Shaun Filer, CEO has worked in the field of international risk management, disaster response, crisis & emergency management and close protection consulting for nearly 20 years. He has recent experience on high-profile cases, including during the Ukrainian, Syrian, Iraqi, Libyan, Afghan and Southern Philippines conflicts, Egyptian and Thai Civil Unrest and in the immediate aftermath of several natural disasters. He holds post-graduate and undergraduate degrees in international relations, journalism and risk management, has a military and emergency medicine background, and is regularly deployed as a trusted advisor and emergency team leader during international crises.

Consulting Team

PACE retains a consulting team with a broad depth of experience that extends across travel resilience, travel risk management, aviation consulting, security consulting, media consulting, foreign affairs consulting, trauma stress awareness, military, policing and close personal protection consulting.

Security Consultants and Arrangements

PACE retains an extensive list of reciprocal consultants and representatives around the globe that gives them true international reach and key strategic footprints. This ensures the ability to provide a timely response to any global incident.

Field Experience

When it comes to issues pertaining to personal safety, proven field experience is paramount. PACE, through both their retained consultants and reciprocal network have been primary responders to the past historical events:
